

# FOR ALL YOUR FINISHING NEEDS

• Financing Available •

## LEONARD AUTOMATICS, INC.

*"our reputation is stainless"™*

## Tunnel Finishers

**Stainless steel garment finishing systems for any style garment, process, or production need.**

- High pass through rates for a quick ROI.
- Versatile modular designs with patented U-Turn modular technology.
- Dual voltage controls on PLC models.
- All stainless steel structural design.

## Transporter Conveyor

**The first stainless steel chain in the industry providing greater pull strength, low stretch and corrosion resistance.**

- Upright pendant and Helping Hand style.
- A direct replacement to other brands.

## Lab Coat and Executive Pressing

**Automated pressing for executive shirts, chef coats, and lab coats.**

- Professional press quality.
- No more outsourcing to the dry cleaner.
- Bring your product control back in house.
- Quick ROI.

## LCW Cart Washing / LCS Cart Sanitizing

**The less expensive more powerful washing and sanitizing system**

- 304 Stainless Steel Construction.
- Self-contained compact design.
- Single or Double cart production.
- Ask us about our chemistry based and UV waterless solutions.

## LF and LFC Series Folder/Crossfolder – Draper - Stacker

**Incredible versatility for any commercial, hospitality or healthcare linen supplier.**

- LF - Large piece up to 3 primary and 3 crossfolds.
- LFC – Same large piece capability with up to 2 primary folds for small pieces with draping accumulation.
- Incorporates our Dynamic Product Length Compensation that automatically adjusts to the products' size.
- Incredible versatility for any commercial, hospitality or healthcare linen supplier.
- Up to 3 stackers for post-folding automatic sortation.

## LVF Vacuum Feeder

**Small Piece and Large Piece vacuum feeding.**

- Dramatically reduces labor.
- Better ergonomics for increased throughput.
- Laser lane guides for easier loading and greater consistency.
- Excellent for Table Rounds!
- Automatic ironer speed synchronization.
- Variable speed vacuum control.

## Hybrid Series

**High speed Small Piece draping accumulator and Large Piece folder.**

- This is the only equipment on the market today that offers you this combination of Small and Large piece processing.
- A full size Stack-N-Store draping stacker coupled with a Large Piece primary folder capable of 2 folds.
- Incorporates our Dynamic Product Length Compensation that automatically adjusts to the product size.
- Incredible versatility, it will even do table rounds!

## Stack-N-Store

**Multi-Lane Small Piece draping stacker.**

- Dramatically reduces your labor and increases your throughput.
- Stacks napkins, pillow slips, aprons, etc.
- Incorporates our Dynamic Product Length Compensation that automatically adjusts to the products' size.
- Operate this unit with an ironer or as a standalone unit.

# LEONARD SALES TEAM

Dan has been with Leonard Automatics for 23 years. With his mechanical background from the US Navy and Duke Power Company he has engineered and installed hundreds of Leonard products throughout the industry. With a well-rounded knowledge of manufacturing and laundry operations, Dan brings the experience necessary to lead the Leonard sales team and ultimately providing you with not just another machinery replacement but the expertise to “value engineer” what will enhance your overall performance and service.

**Dan Farnsworth, Vice President of Sales & Marketing**

---

Dave Perry started in laundry as a teenager, beginning in Maintenance and then working his way up to the position of Corporate Engineer for a large regional laundry company. Dave brings that unique blend of understanding from both perspectives and with that experience he can help in every facet of the laundry setting. Dave’s knowledge and understanding will benefit you from the initial phase of determining the need all the way through to your finished project. Dave can help guide and manage that process every step of the way.

**Dave Perry, Eastern Regional Sales Manager**
